Garin College Computer Network Bring Your Own Device (BYOD) Agreement

Purpose:

Garin College uses technology as one way of enhancing the skills, knowledge and behaviours students will need as digitally connected and responsible citizens in the global learning community. Students learn collaboration, communication, creativity and critical thinking in a variety of ways throughout the school day. In an effort to increase access to these skills, Garin College will allow approved personal devices on our wireless network within school grounds for students who follow the responsibilities stated in the "Appropriate Use of ICT" (see below). Garin College provides the appropriate infrastructure to support the use of students' devices on the school's wireless network. Students are expected to attend with an appropriate device but a temporary device may be provided for the day if students' devices are unavailable (ie being repaired).

An important component of B.Y.O.D will be education about appropriate online behaviours. We will review cyber-safety rules with students and will offer reminders and reinforcement about safe online behaviours. In addition to the rules outlined in these guidelines, students will be expected to comply with all class and school rules while using personal devices. The use of technology is a privilege. When abused, privileges will be taken away.

Device Types:

For the purpose of this document, the word "devices" will include: laptops, netbooks, cell phones, smart phones, iPods, iPads, tablets, eReaders, printer and workstations.

<https://sites.google.com/a/cloud.garincollege.ac.nz/byod/home>

Lost, Stolen, or Damaged Devices:

Each user is responsible for his/her own device and should use it responsibly and appropriately. Garin College takes no responsibility for stolen, lost, or damaged devices, including lost or corrupted data on those devices. While school employees will help students identify how to keep personal devices secure, students will have the final responsibility for securing their personal devices. Insurance and warranties for the computers will be the responsibility of families. Please check with your insurance policy regarding coverage of personal electronic devices, as many insurance policies can cover loss or damage.

Network Considerations:

Users should strive to maintain appropriate bandwidth for school-related work and communications. All users will use the GC BYOD network to access the internet.

Garin College Appropriate Use of ICT

Garin College students are expected to be safe and responsible in their use of devices and are guided by the school's values, which are: **Generosity, Aroha, Rangimarie, Integrity and New Life.**

When using information & communications technologies (ICT) at Garin College I will always be a good digital citizen. This means that:

I will be a confident and capable user of ICT.

I know what I do and do not understand about the technologies that I use. I will get help where I need it. I will ensure that the use of ICT at school is related to the curriculum and education-related learning activities. Devices may not be used for non-instructional purposes while in class. Devices may only be used to access computer files on internet sites which are relevant to the classroom curriculum. The internet is provided for the education of and the improved delivery of curriculum material(s).

I accept that Garin College is authorised to collect and examine any device that is suspected of causing technology problems or was the source of an attack or virus infection.

Students and parents should be aware that devices are subject to search by school administrators if the device is suspected of a violation of the acceptable use guidelines. If the device is locked or password protected the student will be required to unlock the device at the request of a school administrator.

I will avoid allowing ICT-related distractions to detract from my learning or the learning of others at school.

I will be responsible for bringing my computer to school every day, fully charged. I will complete updates at home, including antivirus updates, and provide a mouse. I will also take care of my device and will be committed to learning how to use my computer in my own time, so that I am ready to use it as a tool for learning when in lessons.

I understand that each teacher has the discretion to allow and regulate the use of personal devices in the classroom and on specific projects.

I will keep my passwords secure and not share any of my accounts. I will always log off or lock my device when it is not in use.

I will always use ICT to communicate with others in positive, meaningful ways.

I will always talk politely and with respect to people online. I know that it is possible to bully or hurt people with what I say and do on the internet. I will think about the effect that my actions have on other people and I will not use ICT to harass, bully, demean or hurt others. This includes the recording of and/or publishing images of staff, students or others without specific permission and knowledge of all parties involved. I understand Garin College may monitor traffic and material sent and received using the college's network.

I will not visit sites that show pornographic, racist or violent images or content that is generally degrading and socially unacceptable. I will not download, store or transfer such images or files. I also understand that accessing inappropriate sites will be dealt with through the college's discipline policy.

I understand all email will make use of customary greetings and salutations and is for the sole use of the individual student who is responsible for all traffic generated by that account. Information sent via email shall be constructive, informative or inquiring in the interest of both the sender and receiver.

I will think carefully about whether the information I see online is true.

I know that it is easy to put information online. This means that what I see is not always right. I will always check to make sure information is real before I use it

I will be honest and fair in all of my actions using ICT.

I will make sure what I do is not against the law. I will make sure that my actions don't break the rules of the websites that I use. When I am not sure about what I am doing I will ask for help. I will not plagiarise, ensuring that I properly reference the work of others. The network is not to be used for personal gain or illegal activity. This includes the downloading of music, video, game or software files that would infringe the Copyright Act 1994, and amendments. The streaming of data for personal entertainment is not acceptable. Garin College's network filters will be applied to a device's connection to the internet. I will not attempt to use incognito mode, use proxies or any other ways of trying to hide my activity or bypass any filters put in place by the college.

My behaviours and actions will be ethically acceptable and I will not bring myself or family, school or community into disrepute.

I will always respect people's privacy and freedom of speech online.

I understand that some information is private and will not be distributed to other parties at anytime. This includes forwarding of information sent by another party.

I will be careful when using full names, birthdays, addresses and photos of other people and of my own. I also know that I will not always agree with what people say online but that does not mean that I can stop them or use it as an excuse to be unkind to them. I will protect the privacy, confidentiality and the dignity of individuals by not disclosing, using, distributing or publishing information about individuals in any way that may cause them harm. I will not use the identity, accounts, passwords or confidential details of other people.

Neither will I use ICT to photograph, video or record people in the school context, or publish or distribute those recordings, without the express permission of the supervising teacher, student or other person. I will take responsibility for reporting inappropriate usage of ICT in the school community.

I will help others to become a better digital citizen.

Being a good digital citizen is something that we all have to work at. If I know that my friends are having problems online, I will try to help them. If I see that someone is being unfairly treated online then I will speak up rather than just watch it happen.

I will be able to speak the language of digital technologies.

When people talk online, the things they say can be quite different from a conversation they might have if they were sitting next to each other. I know that I must try to understand what people are saying before I react to them. If I am not sure, I can ask them or someone else to explain.

I understand that I may experience problems when I use technology but that I will learn to deal with them.

I understand that there will be times when technology may not work as I expected it to, or that people may be mean or unkind to me online. When these things happen, I know that there are ways I can deal with it. I also know there are people I can go to, to get help if I don't know what to do next.

If I have an issue with a device I know that I can seek help from Garin College's IT Technicians. If I have an issue with text, cyberbullying or any harmful digital communications, I can follow this link for 'next steps': <http://bit.ly/2sf0ohn>

Students and Parents/Guardians acknowledge that:

We understand that these guidelines for appropriate use are to be followed when using any technology whilst at school or whilst on any school activity. We are aware that this may include the use of a device that the school does not own.

We understand that the student will abide by the above guidelines. We further understand that any violation is unethical and may result in the loss of access to school ICT services including the use of the internet, school owned devices or any personally owned device used at school, as well as other disciplinary action. During the course of the school year, additional rules regarding the use of personal devices may be added.

IMPORTANT NOTICE - Enrolling Parents

Special Assessment Conditions

Special Assessment Conditions (**SAC**) provide extra help for approved students when they are being assessed for their NCEA so that barriers to achievement can be removed and they then have a fair opportunity to achieve credits. The support is used for internal standards and external (exams) standards.

Examples of SAC are use of a writer or computer, rest breaks, Braille or enlarged papers, or reader.

If your child has sensory, physical, medical and/or learning difficulties/disabilities that might be able to be overcome or reduced considerably with appropriate assistance, they may be eligible for SAC assessment.

A student with possible need, will be tested and the various types of assistance can be trialled during yr 9 and 10. The school will contact you about the needs they have identified for your child, and they will trial various support that may help your child's learning. This helps to determine if an application can be made to NZQA for assessments in Yr 11 and beyond, and for which SACs. If you have any cognitive assessments or medical letters of diagnosis, these could be forwarded to the SENCO in support of your child's application.

If you would like to **more fully inform the school on your child please email** our Special Education Needs Co-ordinator (SENCO) Lou Maguire, and she will arrange a time to meet and share information.
